

Founded in 2016, Neuchâtel's DONE WATCHES has proudly forged a new path among independent watchmaking brands.

Born from the mind of Thierry Clottu, DONE WATCHES offer true mechanical, "Swiss Made" watches just as he always imagined them.

After spending more than ten years in the product development for major brands, Thierry Clottu wished to develop a watch that fit his own vision of modern, authentic watchmaking. DONE WATCHES therefore focus on highlighting the beautiful mechanics of their movements.

To make this project possible, DONE WATCHES utilized crowd funding to create a watch freed from any external constraints. After a short and successful Kickstarter campaign, Thierry Clottu raised the funds needed to develop his project, and DONE WATCHES was born.

Thierry Clottu: *"I love my work and the watches born from it. I feel an incredible pleasure developing my own product, watching it grow until it finally becomes real. The brand name DONE embodies the challenge that this project has been for me, and the joy in meeting that challenge! It's a way to say 'Done, I did it, I've done it!'"*

DONE WATCHES follows a simple philosophy: ***Dedicate yourself entirely to a project and make it real.***

DONE IN NEUCHATEL

After more than a year of hard work, the brand's first project was DONE, the "MECHANICA". A wonderful time machine equipped with a hand-decorated, manual-winding caliber.

On the strength of this first effort, the brand's development has continued and been enriched by new models over the ensuing years.

The "MECHANICA B03 Ltd edition" is the next one of Thierry Clottu's dreams to take shape and will debut at the "Time To Watches" event in Geneva, which will see this newest model DONE!

About DONE WATCHES

Founded in 2016 by Thierry Clottu, DONE WATCHES is driven by a sincere desire to offer "Swiss Made" watches with timeless design, highlighting the beauty of its mechanical movements.

Based in the canton of Neuchâtel, DONE received support from the Kickstarter community to fund its first project and launch its "MECHANICA" model. The ensuing years have seen the brand develop new models while retaining its founding principles.

About Thierry Clottu

A graduate in micro-engineering HES, Thierry has been working for over 10 years in the watch industry in key positions for major brands. In 2012 he decided to start his own agency - TCL Concept Sàrl, specialized in product development for the watch industry. In 2016, he decides to move one step further and take a new direction on his professional path, creating the brand DONE WATCHES.
